

## Online learning competencies for young millennials

Oliana Sula

Online social networks such as Facebook, LinkedIn, Google + and Instagram among other e-platforms that enable users to e-participate and share information and knowledge with real-time updates and reduced costs. Young people are digital born - they were born in this era where internet is an essential part of their daily activities and only for leisure purposes. The aim of this study is to map online learning competencies and online learning strategies for young students enrolled in higher education programs extendable to non-formal education context.

Oliana Sula is a lecturer and researcher at the Department of Management, Faculty of Business, University "Aleksandër Moisiu" Durrës, Albania and doctoral student at Estonian Business School, Tallinn, Estonia.
